Description:

A rare beauty from the house ANGELUS, unisex - N.O.S. - we present here: Dial, hands, stainless steel case with the original brushed finish, all perfectly preserved, although approximately 70 years old. The manufacture movement cal.215 of Angelus was probably built in the best quality level, all steel levers are provided with fine cut and angles and polished side surfaces, the silver-plated circuit board. The fine cream dial with the red tachymeter scale harmonizes perfectly with the red, red leather strap.
