Description:

The ref. 10177202, the famous pilot's watch from 1968, in beautiful condition. Originally developed as a navigation aid for pilots, the chronograph with the distinctive scale vernier of the 1960s and 1970s. The 2-pint stainless steel case is well preserved and shows only old traces of corrosion on the inside of the back cover. The red gold-plated movement (32122 Cal. 171) shows that on the first day, hourly service, the fine movement delivers a gift division with the crown clear of 2 seconds a day and an amplitude of 248 degrees per minute. The dial shows the age pattern, the luminous material of the hands and dial is polished and seems to belong together! Brightly contrasted subdial above the dark dial, the minute counter at 3 o'clock, the hour counter at 6 o'clock and the constantly moving second at 9 o'clock. The watch comes with a hand-sewn cowhide leather strap with light contrast stitching and striking stainless steel pin buckle, as Kaufmann describes. The brand has slight signs of wear. All in all a very nice classic in an increasingly rare, beautiful condition.
