with few signs of wear. Our BIG FLOWER POT is well preserved. There is only damage to the enamel at the edge, about 2 mm long and 1 mm high. The large bowl still has the original sticker inside, some of which have been completely preserved. The small bowl was enamelled red on the inside, which means that the lamp shines particularly warmly. The wiring was replaced in black textile cable.

about this Object:

Verner Panton Design in XXL offers our BIG FLOWER POT! Above a table, the large lamp unfolds all of its charm with warm, sensual light. In general, the whole luminaire radiates a great sensuality through the round shapes with the flowing, raised enamel decor. Like no other, Verner Panton created such rooms in warm, sensual colors and softly flowing lines. The large BIG FLOWER POT lights by Verner Panton for Louis Poulsen are now very rare on the market.
